## Job Scheduling Tasks

### System Config > Defaults > Job Costing

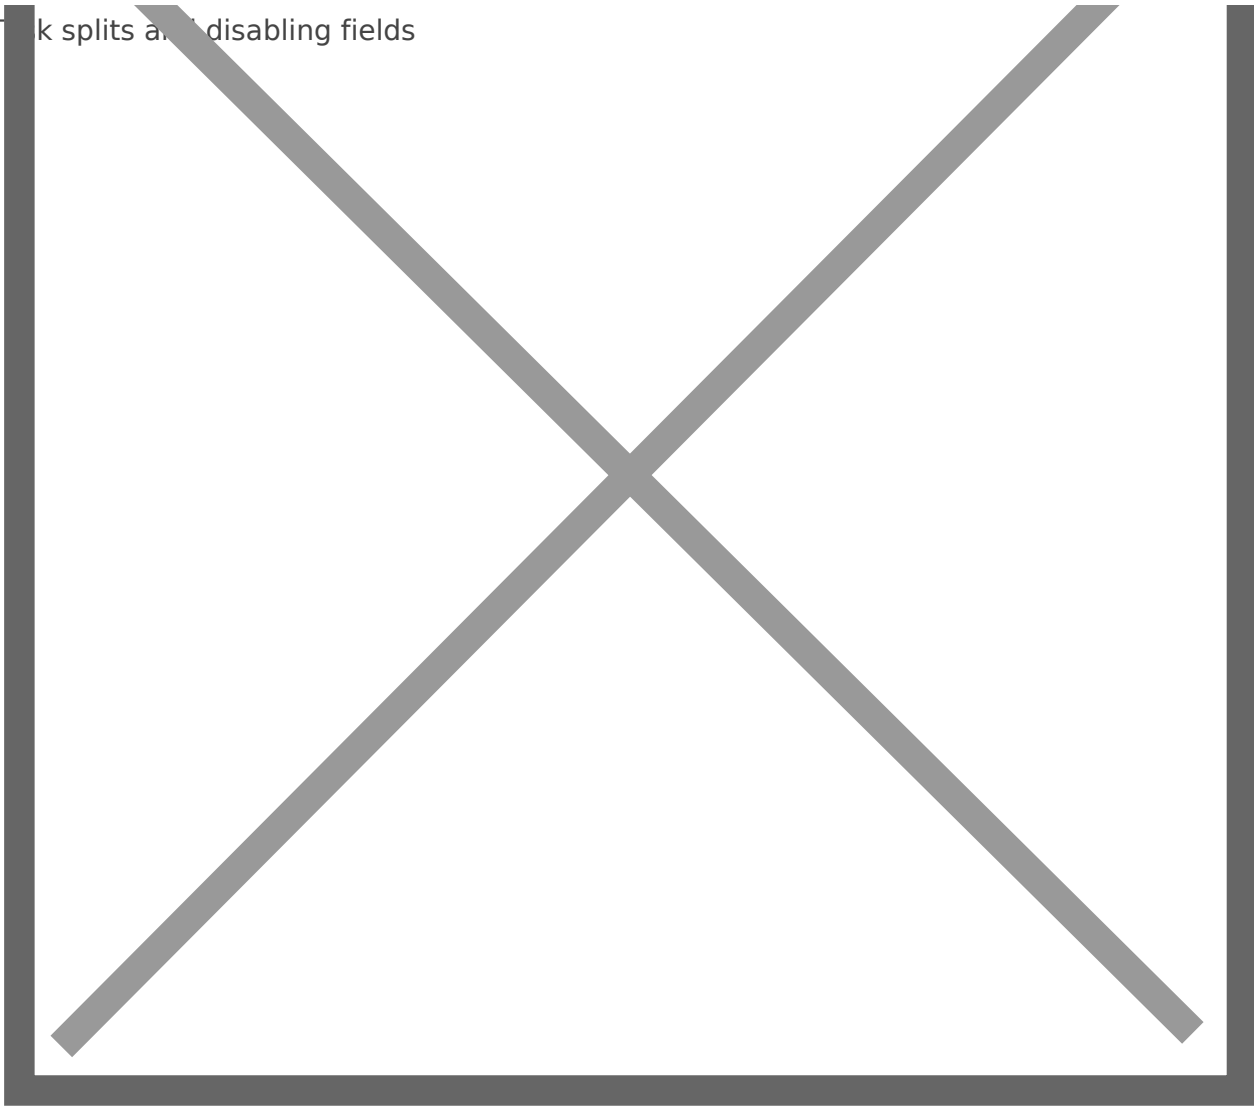

The Job Schedule tasks have a few setups that can be set

|                  |                                                                |
|------------------|----------------------------------------------------------------|
| <b>Task Type</b> | Set the Task Type in the Job Schedule search filter as default |
|------------------|----------------------------------------------------------------|

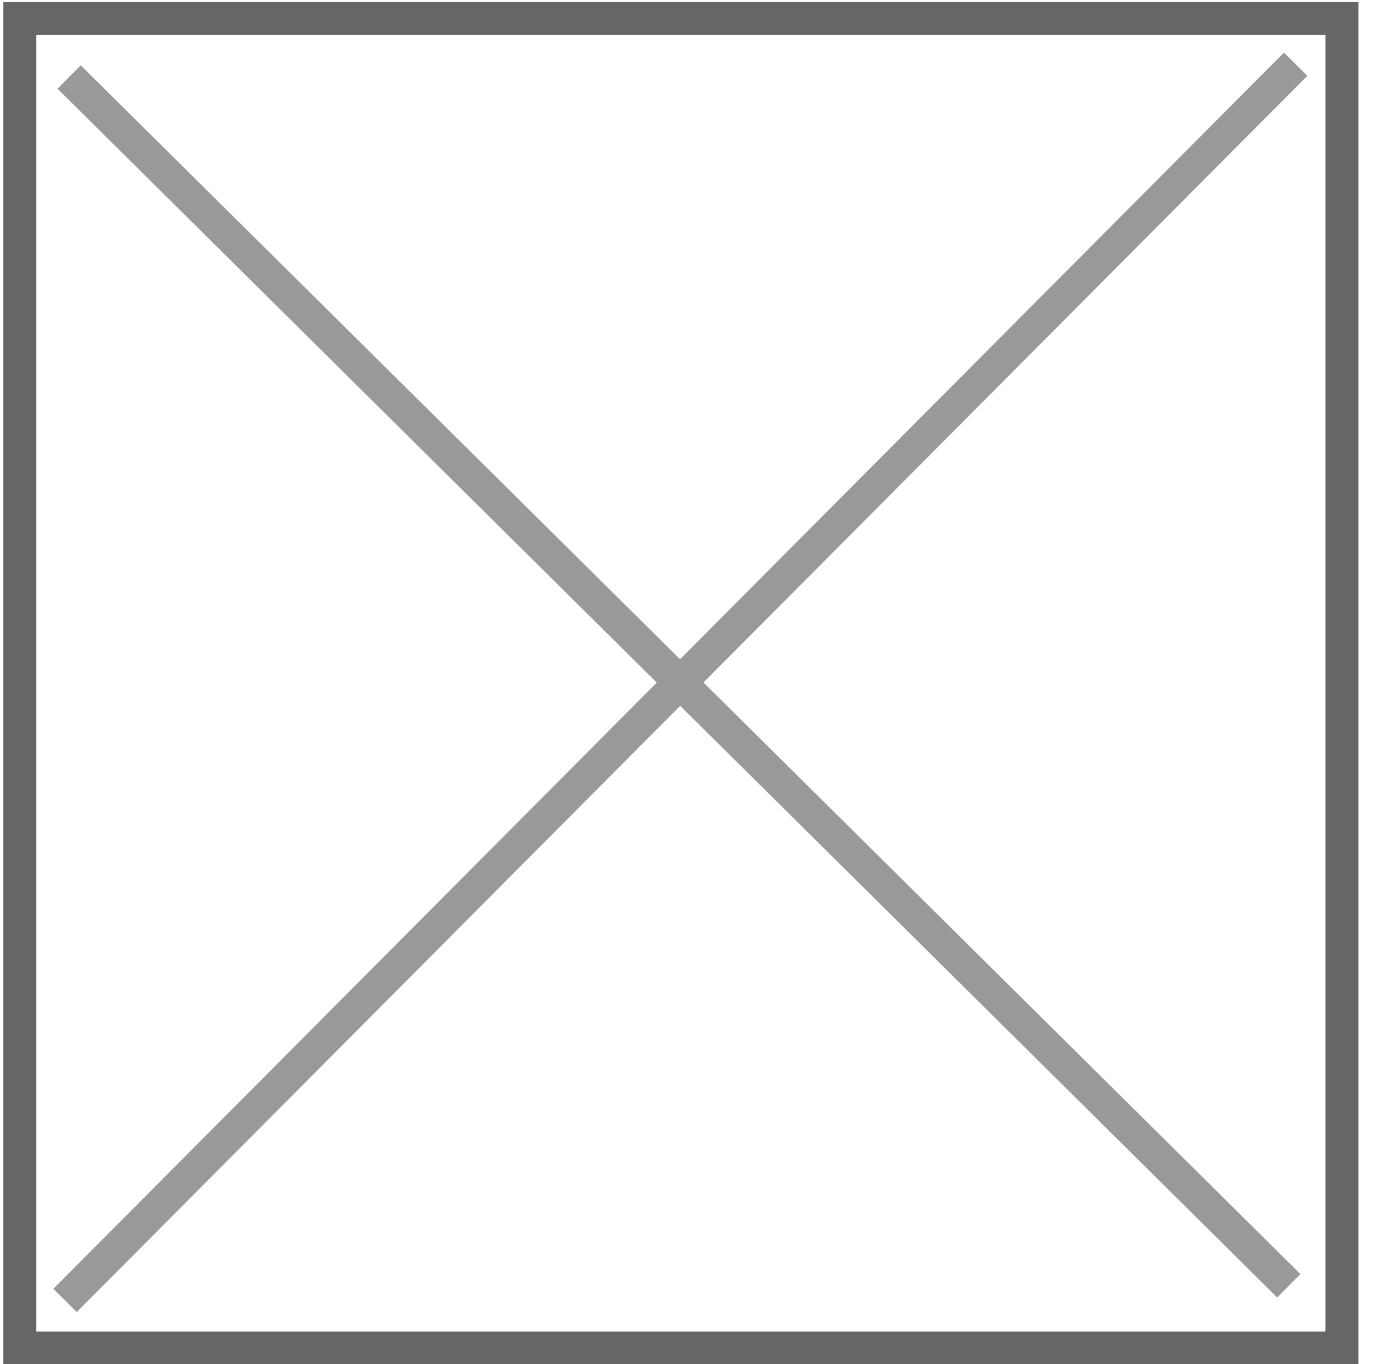

|                                              |                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Task Split Edit</b>                       | Set the rule for splitting a task activity<br><b>a.</b> Value split and % zero - Split the value of the main task with 50% and 50% on split task. Leave % complete on main task as is and make split task start with zero percentage.<br><b>b.</b> Value zero and % zero - Keep the main task value and percentage the same. Make the split task value and percentage zero. |
| <b>Disable sub and split task value</b>      | Disable the values fields of the sub and split tasks so that the user cannot edit                                                                                                                                                                                                                                                                                           |
| <b>Disable sub and Split Task percentage</b> | Disable the percentage fields of the sub and split tasks so that the user cannot edit.                                                                                                                                                                                                                                                                                      |
