

Barcode Count App Menu

Click Here - [Video](#)

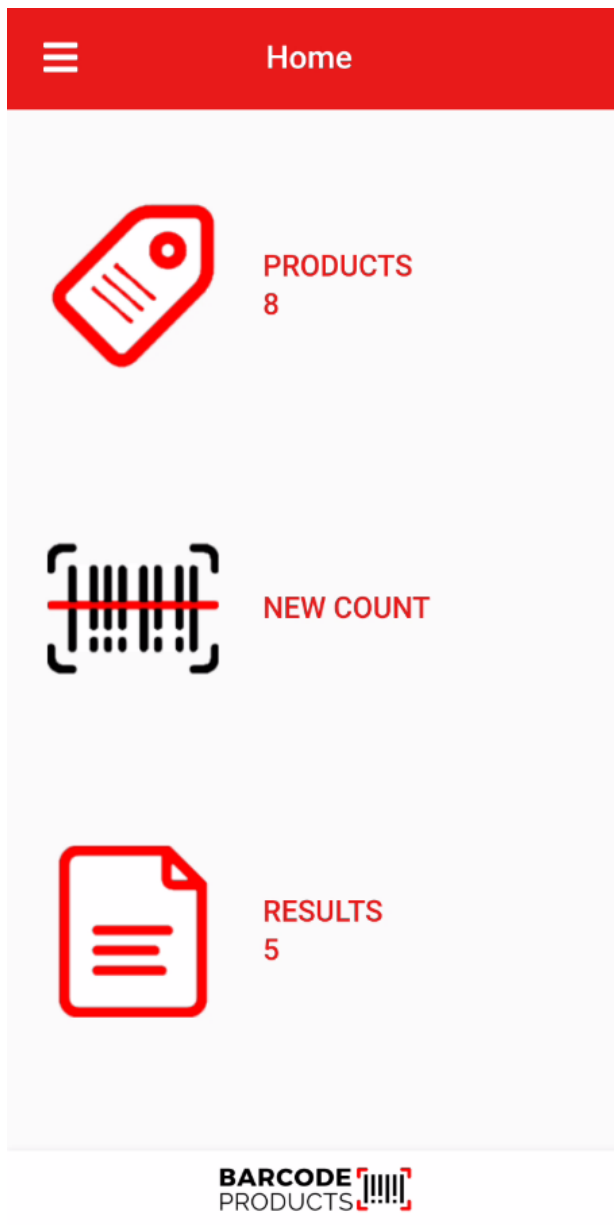

The Barcode Count App allows for a basic capture of stock items with barcodes.

The app is installed as an APK file downloaded to the device.

This is manually installed on the device. Any updates would require the user to visit the website and download the latest install file.

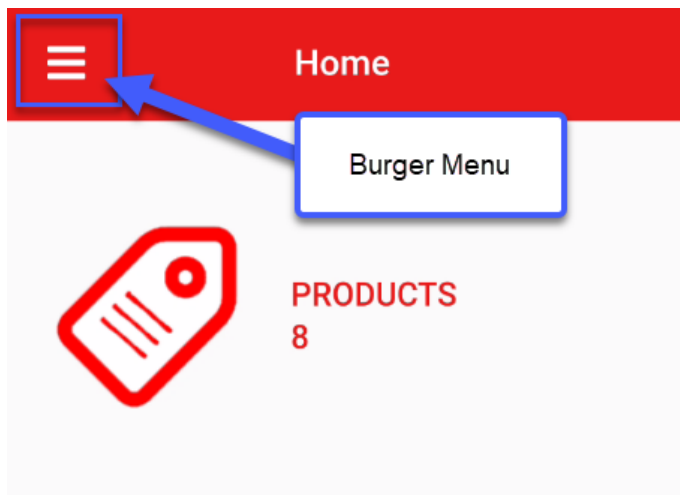

When first accessing the app, one is presented with the basic page.

Products	Upload a file with all your stock items
New Count	Begin a new count batch
Results	View results of previous scans

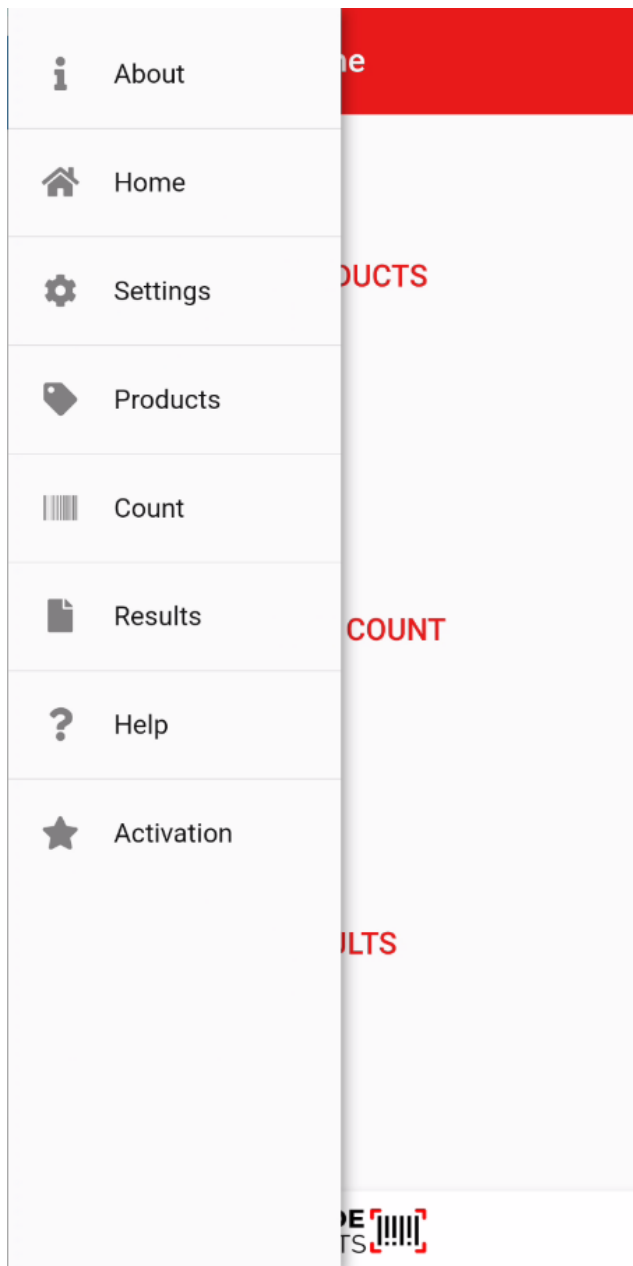

Menu defined

Click on the menu (burger) icon to open up options
