

Purchase Order MOQ

Added in the new field for MOQ which fetches it from the item and the supplier

Put the value in, this value is NOT editable but for information for the user

Rules

When clicking on save and close or save and New

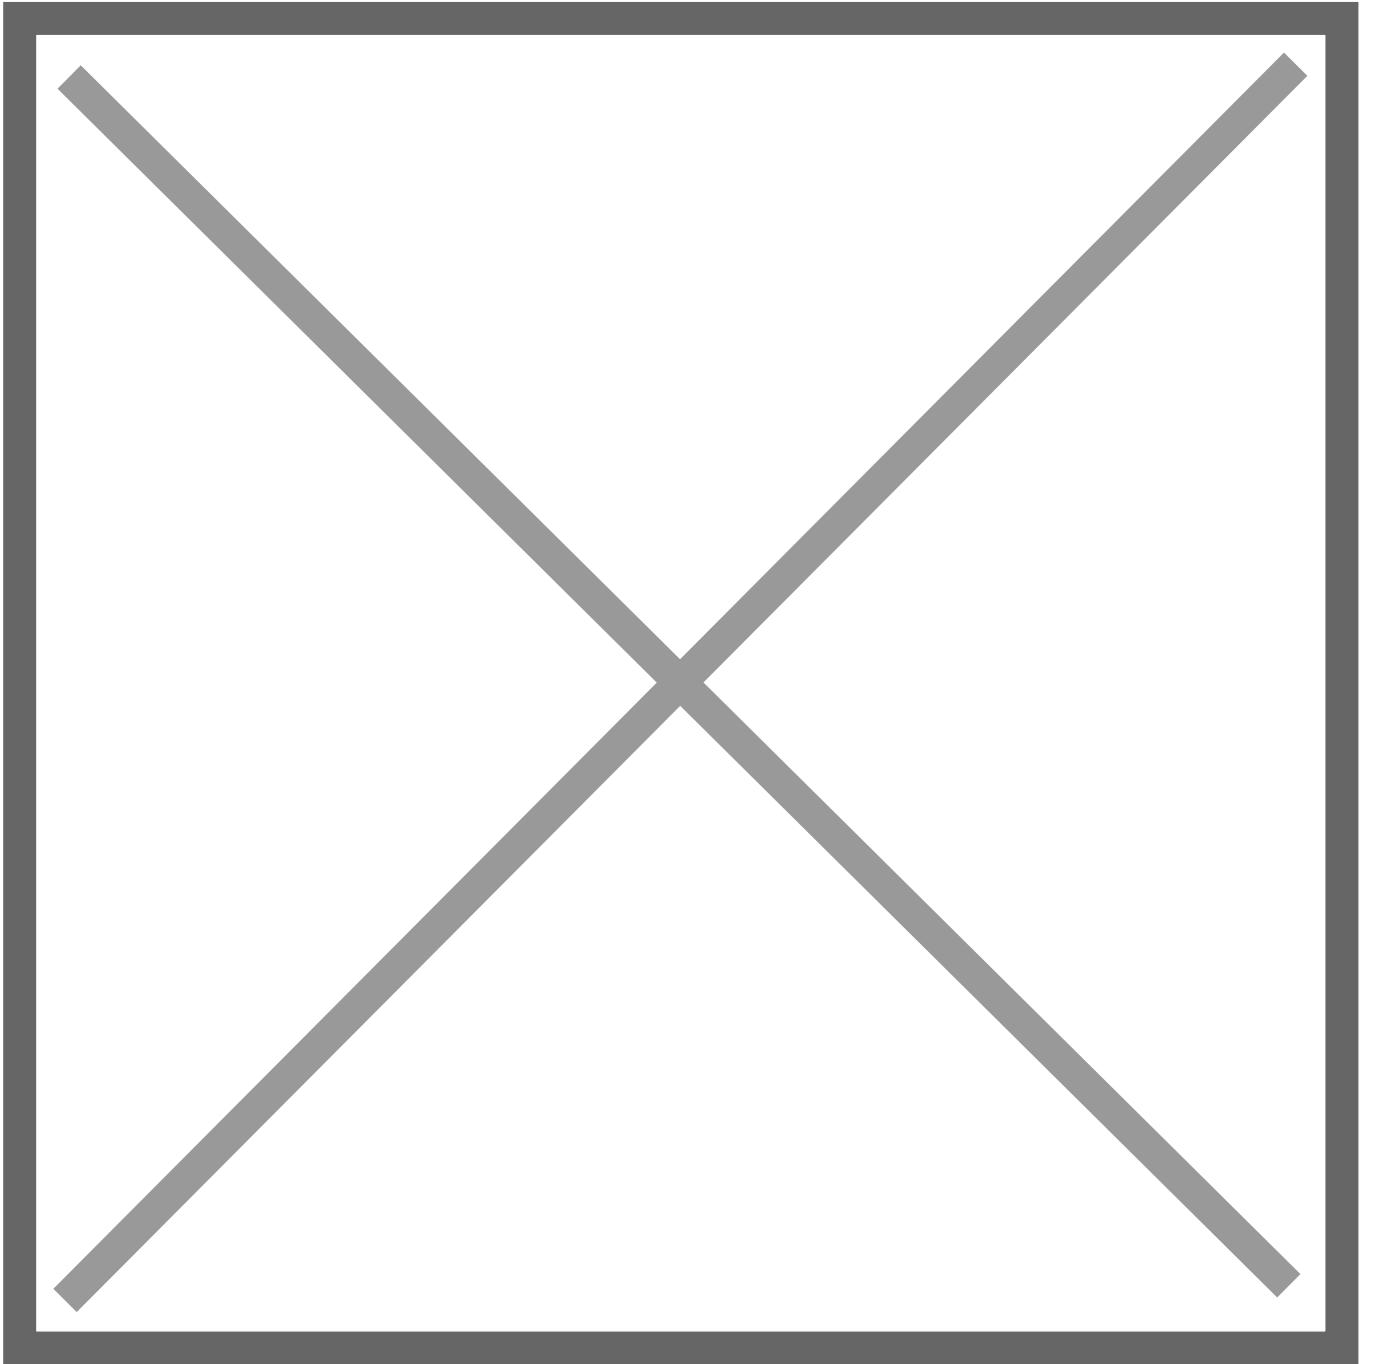

And the MOQ is higher than the quantity

Bring up an alert to inform the user that the Order quantity is lower than the MOQ quantity

Continue	Normal saving
Cancel	Take the person back to the screen to change quantity

Please DO NOT use Alert if the MOQ is blank or Zero

MOQ must have a valid number
