Dispatch Stock works with Part Proforma invoices

Video intro on Dispatch stock 2023/10 - [Dispatch Stock.mp4](#)

It allows the customer to pay for stock upfront and receive stock based on their request.

This means that you can send some of the stock and send the remaining stock later.

Dispatch stock records all the stock movements and does postings on the ledger.

You can print the dispatch stock document for the stock that is going out or detailed document that shows the stock that is out and a detailed document that shows both.
