

Individual Connection Point ICP

ICP Data

Go to the ICP Data tab

Click on Add to add in ICP.

[image.png](#)

Enter the ICP number and save

ICP Import (Scrape)

Then click on the ICP import

This will update the various information, click on save again

[image.png](#)

Consumption data import

Once you have fixed the spreadsheet, make sure it is in this format

A sample of the Excel file is attached - [Consumption Data Import.xlsx](#)

[image.png](#)

Import the consumption data

[image.png](#)

Find the file to import

Make sure the Excel sheet is saved and closed before importing

[image.png](#)

After the file is imported, it will update the following tabs

- 144 Part
- 48 Part
- Consumption Stats

[image.png](#)

After all the ICPs have been entered and Consumption data imported.

Save and Close and go back to the RFP
