

Change Customer on Job

Use this ability to change a wrong customer on a job to the correct customer .

This will change all the quotes and job to the new customer

Find the job number that has the wrong customer.

Select a new customer that you want the job to go to and click on the button called change.

This will change any invoices against the job.

Note that this will not allow you to change the customer if there are any invoices that are allocated.

Unallocated payment to invoice before running this utility.
