

Stock Count - Receive Stock

Create a Stock Count and Receive Stock

There are two methods for Receiving stock, link to each video manual 202311 below

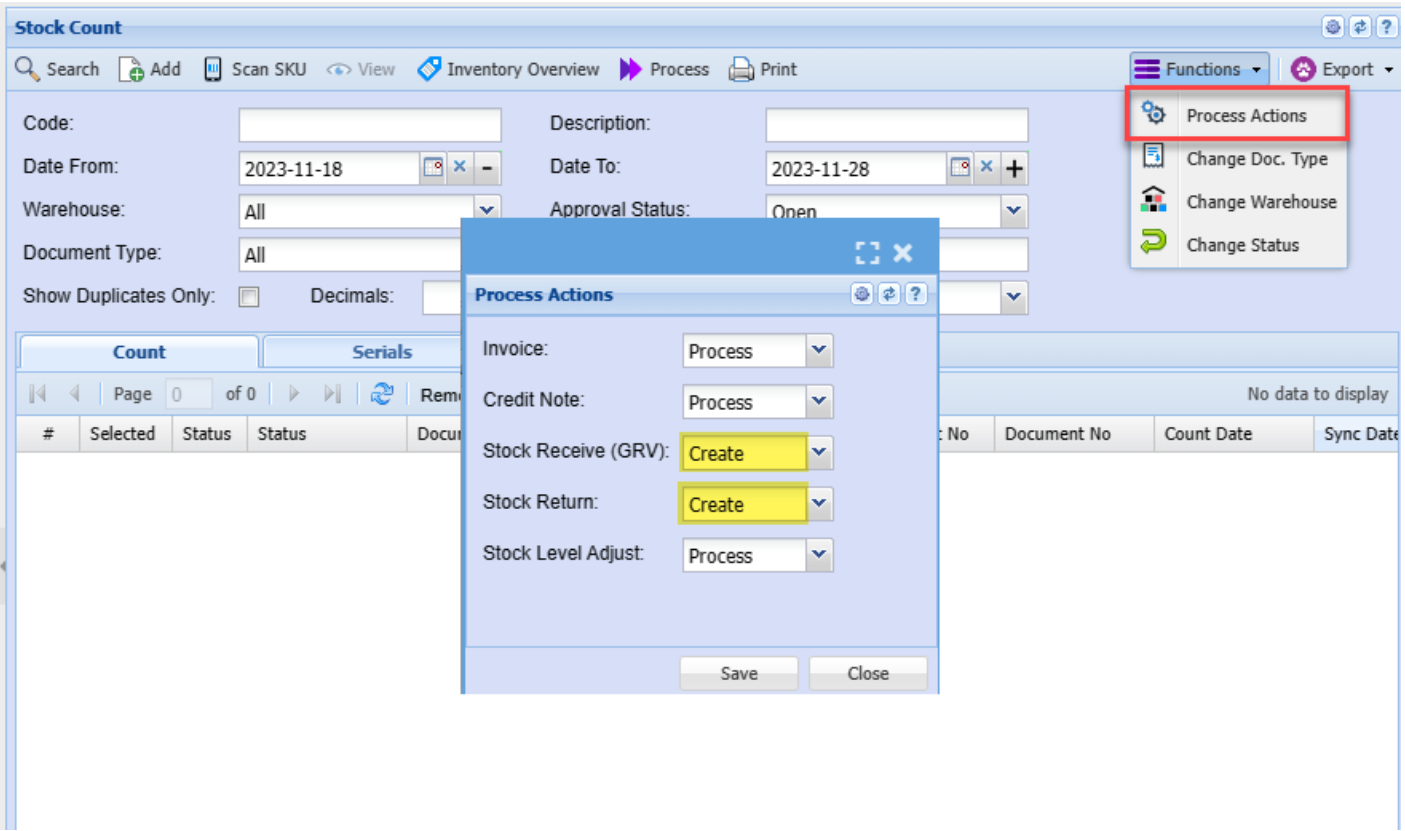

- 1. Receive stock (Quantity only) - [Stock_Count_Receive_Stock.mp4](#)
- 2. Receive stock and update prices (Quantity and price) - [Stock_Count_GRV_Price.mp4](#)

The methods above require a system change in order to run processes.

Receive stock and update prices require two steps

Process actions

None	Logs stock count only
Create	Logs stock count and creates document
Process	Logs stock count and creates document and processes document
