

# New Manual

Huge Software has engaged in a new manual which is easier to update, search function is great.

We will be updating the manual over the next coming months.

This is divided into multiple sections

|                 |                                                                                                    |
|-----------------|----------------------------------------------------------------------------------------------------|
| <b>Shelves</b>  | Main Modules - General ledger Module                                                               |
| <b>Books</b>    | Menu Groups - Sub Categories of Module - Sub menus - Configuration, Activity, Analysis and Reports |
| <b>Chapters</b> | Menu items<br>General Ledger setup etc                                                             |
| <b>Pages</b>    | Various pages within the Chapters to explain the functions                                         |
| <b>Headers</b>  | Creating various headers within the page to give quick search to that section                      |
