

Huge ERP Web Services

Accessing Web Services

A user would have to be setup to access the web services.

Use a path like this

Domain Path + /csp/namespace/WS.GRV.cls

Put this at the end of the path to view details of the web service - ?wsdl

eg./csp/namespace/WS.GRV.cls?wsdl

Debtors setup	/WS.DebtorDetail.cls	Customer information
Creditors setup	/WS.CreditorDetail.cls	Supplier information
Inventory setup	/WS.StockType.cls	
Debtors Journal	/WS.DebtorJournal.cls	
GRV - Goods Received Voucher	/WS.GRV.cls
